AUSTRALIAN PAEDIATRIC JOURNAL

INDEX TO VOLUME 15, 1979

AUSTRALIAN COLLEGE OF PAEDIATRICS

INDEX TO VOLUME 15

SUBJECT INDEX — VOLUME 15, 1979

A

Aboriginal children, preschool, growth characteristics of, 10
Accidents in children under 13 years in Australia: recent literature, 283
Accidents in the first five years of life: a report from the Dunedin Multidisciplinary Child Development Study, 255
Adolescents in hospital, 170
Adrenal hyperplasia, congenital, diagnosis of 11β hydroxylase deficiency in two children with, 36
Aicardi syndrome, the, in a 47, XXY male, 278
A kinetic problem: hormonal therapy in the future, S7*
Antenatal diagnosis of maple syrup urine disease, 183
Antibody responses to influenza virus vaccine in patients with cystic fibrosis, 181
Antibody responses to influenza virus vaccine in patients with acute lymphocytic leukaemia, 177
Aplasia of the first and second branchial arches, 275
Arthritis, septic, in infancy, S41
Atopic children, nasal smears from, enumeration of mucus-containing cells, mast cells and eosinophils in, 166
Australian paediatrics, a bibliography of, 1846-1900, Part III, 20
Autistic girls from New South Wales, physical growth development in a sample of, 110
Autonomic nervous system, role of, controlling secretion of pulmonary phospholipids in the rabbit at birth, 238

B

Baby foods, element and trace element content of, including effect of ageing, 16

Bibliography of Australian paediatrics, 1846-1900, Part III, 20
Birth injury with unusual clinical features simulating Werdnig Hoffmann disease, 47
Blood-brain barrier permeability to methotrexate, the effect of cranial irradiation on, 184
Book reviews, 53, 126, 217, 294
Branchial arches, aplasia of the first and second, 275
Breast feeding: Editorial comment, 225
Breast feeding success and failure, 271

C

Childproof safety barriers, 260
Comparison of nasojejunal with nasogastric feedings on low-birth-weight infants, 98
Congenital limb deficiencies, early management of: Editorial comment, 1
Cow's milk protein sensitive enteropathy (CMPSE): an important cause of protracted diarrhoea in infancy, 266
Cranial irradiation, the effect of on blood-brain barrier permeability to methotrexate, 184
Current status of PKU diagnosis and treatment, 227
Cyclophosphamide therapy, prepubertal, and gonadal dysfunction: a case report and review of the literature, 120
Cystic fibrosis, antibody responses to influenza virus in patients with, 181

D

Diagnosis of 11β hydroxylase deficiency in two children with congenital adrenal hyperplasia, 36
Diarrhoea, infectious, in children, S25
Diarrhoea, protracted, in infancy, an important cause of: cow's milk protein sensitive enteropathy (CMPSE), 266
Disseminated intravascular coagulation due to an exchange transfusion with over-heated blood, 33
Distant family treatment: a case of school phobia, 187
Dynamometer, portable hand-grip, 107

E

Early childhood, nutritional studies during:
I. Energy and nutrient intake, 72
II. Feeding practices during infancy and their relationship to socio-economic and cultural factors, 81
III. Incidental observations of temperament, habits and experiences of ill-health, 87
Early management of congenital limb deficiencies: Editorial comment, 1
Editorial comments:
Breast feeding, 225
Early management of congenital limb deficiencies, 1
Screening for neonatal hypothyroidism, 61
Effect of isoxsuprine on secretion of pulmonary phospholipids in fetal rabbits, 7
Electron microscopy, comparison of and enzyme linked immunosorbent assay (ELISA): rapid diagnosis of rotavirus infection, 229
Element and trace element content of baby foods, including effect of ageing, 16
11β hydroxylase deficiency, diagnosis of in two children with congenital adrenal hyperplasia, 36
Energy and nutrient intake. Nutritional studies during early childhood, I, 72
Enumeration of mucus-containing cells, mast cells and eosinophils in nasal smears from atopic children, 166
Enzyme linked immunosorbent assay (ELISA), comparison of electron microscopy and: rapid diagnosis of rotavirus infection, 229
Eosinophils, mucus-containing cells and mast cells, enumeration of in nasal smears from atopic children, 166
Erythrocyte lifespan, fetal, 96
Exchange transfusion with over-heated blood, disseminated intravascular coagulation due to, 33
Extremely low birthweight infants, iatrogenic hazards of neonatal intensive care in, 233

F

Feeding practices during infancy and their relationship to socio-economic and cultural factors. Nutritional studies during early childhood, II, 81
Feeding practices, infant, in Sydney 1976-77, 113
Fetal erythrocyte lifespan, 96

G

Glucose tolerance in very low birthweight infants, 147
Gonadal dysfunction, prepubertal cyclophosphamide therapy and: a case report and review of the literature, 120
Growth characteristics of preschool Aboriginal children, 10

* Special Issue

H

Hepatology, paediatric, recent advances in, S36
Hereditary hyperammonaemic syndromes: a six year experience, 142
Herpes simplex virus, intra-uterine infection with, and observed radiological changes, 123
Histiocytosis X, disseminated, prognostic criteria, treatment and survival in, 91
Hormonal therapy in the future: a kinetic problem, S7
Hyaline membrane disease, transcutaneous measurement of oxygen tension in infants with, 3
Hyperammonaemic syndromes, hereditary: a six year experience, 142
Hypothyroidism, neonatal, screening for: Editorial comment, 61

I

Iatrogenic hazards of neonatal intensive care in extremely low birthweight infants, 233
Idiopathic intussusception occurring in father and son, with a postoperative intussusception in the son, 281
Imerslund's syndrome. A case from Australia and review of the literature, 49
Incidental observations of temperament, habits and experiences of ill-health. Nutritional studies during early childhood, III, 87
Infant feeding practices in Sydney, 1976-77, 113
Infant Gaviscon, the mode of action and complications of, 263
Infants weighing 1000 g or less at birth, respiratory failure in, 152
Infection, intra-uterine, with herpes simplex virus, and observed radiological changes, 123
Infectious diarrhoea in children, S25
Influenza virus vaccine, antibody responses to, in patients with cystic fibrosis, 181
Influenza virus vaccine, antibody responses to, in patients with acute lymphocytic leukaemia, 177
International Paediatric Conference, Prince of Wales Children's Hospital. Abstracts of papers, S44
Intra-uterine infection with herpes simplex virus and observed radiological changes, 123
Intussusception, idiopathic, occurring in father and son, with a postoperative intussusception in the son, 281
Isoxsuprine, effect of, on secretion of pulmonary phospholipids in fetal rabbits, 7
Is "transient tachypnoea of the newborn" always a benign disease? Report of six babies requiring mechanical ventilation, 160

L

Leukaemia, acute lymphocytic, antibody responses to influenza virus vaccine in patients with, 177
Low-birth-weight infants, a comparison of nasojejunal with nasogastric feedings, 98
Low birth weight infants, glucose tolerance in, 147
Low birth weight Malaysian neonates, metabolic acidosis and renal solute load in relation to the protein intake of, 101

M

Maple syrup urine disease, antenatal diagnosis of, 183
Mast cells, mucus-containing cells and eosinophils, enumeration of in nasal smears from atopic children, 166
MEDLARS Service, Australian: Recent literature on childhood nutrition, 58, 131, 219
Metabolic acidosis and renal solute load in relation to the protein intake of low birth weight Malaysian neonates, 101
Methotrexate, the effect of cranial irradiation on blood-brain barrier permeability, 184
Mucus-containing cells, mast cells and eosinophils, enumeration of in nasal smears from atopic children, 166
Myasthenia gravis, neonatal, respiratory studies in an infant with, 44

N

Nasal smears from atopic children, enumeration of mucus-containing cells, mast cells and eosinophils in, 166
Nasogastric feedings, a comparison with nasojejunal on low-birth-weight infants, 98
Nasojejunal feedings, a comparison with nasogastric on low-birth-weight infants, 98
Neonatal hypothyroidism, screening for: Editorial comment, 61
Neonatal intensive care, iatrogenic hazards of in extremely low birthweight infants, 233
Neonatal myasthenia gravis, respiratory studies in an infant with, 44
Neonates, low birth weight Malaysian, metabolic acidosis and renal solute load in relation to the protein intake of, 101
Nephrotic syndrome, steroid-responsive, of childhood: pathogenesis and treatment, S17
Neuroblastoma, stage IV-S: disseminated malignancy with a favourable prognosis. Three case reports, 39
Newborn, transient tachypnoea of the. Is it always a benign disease? Report of six babies requiring mechanical ventilation, 160
Nutrition of premature infants, total parenteral.
1. Requirement for macronutrient elements, 62
2. Requirement for micronutrient elements, 67
Nutritional studies during early childhood.
I. Energy and nutrient intake, 72
II. Feeding practices during infancy and their relationship to socio-economic and cultural factors, 81
III. Incidental observations of temperament, habits and experiences of ill-health, 87

O

Oxygen tension, transcutaneous measurement of, in infants with hyaline membrane disease, 3

P

Pathogenesis and treatment: the steroid-responsive nephrotic syndrome of childhood, S7
Peritoneal lavage, post-operative, the treatment of peritonitis in the small infant by, 118
Peritonitis, the treatment of by post-operative peritoneal lavage in the small infant, 118
Phospholipids, pulmonary, role of autonomic nervous system controlling secretion of in the rabbit at birth, 238
Physical growth development in a sample of autistic girls from New South Wales, 110
PKU diagnosis and treatment, current status of, 227
Portable hand-grip dynamometer, 107
Premature infants, total parenteral nutrition of,
1. Requirement for macronutrient elements, 62
2. Requirement for micronutrient elements, 67
Prepubertal cyclophosphamide therapy and gonadal dysfunction: a case report and review of the literature, 120
Pre-school children in Lower Hutt, prevalence of wheezing in, 168
Prevalence of wheezing in pre-school children in Lower Hutt, 168
Prince of Wales Children's Hospital International Paediatric Conference. Abstracts of scientific papers, S44
Proceedings:
Address by His Excellency Sir Zelman Cowen, A.K., G.C.M.G., K.St.J., Q.C., Governor-General of the Commonwealth of Australia, on the occasion of the Annual Meeting of the Australian College of Paediatrics, Canberra, May, 1979, 137
Australian College of Paediatrics: Abstracts of papers presented at the 24th Annual Meeting, 190
Paediatric Research Society of Australia: Abstracts of papers presented at the 12th Annual Meeting, 285
Prognostic criteria, treatment and survival in disseminated histiocytosis X, 91
Protein intake of low birth weight Malaysian neonates, metabolic acidosis and renal solute load in relation to, 101
Publications received, 57, 130, 223, 293

Pulmonary phospholipids, effect of isoxsuprine on secretion of in fetal rabbits, 7
Pulmonary phospholipids in the rabbit at birth, role of autonomic nervous system controlling secretion of, 238

R

Rapid diagnosis of rotavirus infection: comparison of electron microscopy and enzyme linked immunosorbent assay (ELISA), 229
Recent advances in paediatric hepatology, S36
Recent advances in respiratory medicine, S4
Recent literature: Accidents in children under 13 years in Australia, 283
Recent literature on childhood nutrition (Australian MEDLARS Service), 58, 131, 219
Renal solute load and metabolic acidosis in relation to the protein intake of low birth weight Malaysian neonates, 101
Respiratory failure in infants weighing 1000 g or less at birth, 152
Respiratory medicine, recent advances in, S4
Respiratory studies in an infant with neonatal myasthenia gravis, 44
Role of autonomic nervous system controlling secretion of pulmonary phospholipids in the rabbit at birth, 238
Rotavirus infection, rapid diagnosis of: comparison of electron microscopy and enzyme linked immunosorbent assay (ELISA), 229

S

Safety barriers, childproof, 260
Septic arthritis in infancy, S41
School phobia, a case of: distant family treatment, 187
Some statistical and climatological aspects of the incidence of the sudden infant death syndrome, 248
Stage IV-S neuroblastoma: disseminated malignancy with a favourable prognosis.Three case reports, 39
Steroid-responsive nephrotic syndrome of childhood: pathogenesis and treatment, S17
Sudden infant death syndrome, the incidence of, some statistical and climatological aspects, 248

T

Tachypnoea, transient, of the newborn. Is it always a benign disease? Report of six babies requiring mechanical ventilation, 160
The Aicardi syndrome in a 47, XXY male, 278
The effect of cranial irradiation on blood-brain barrier permeability to methotrexate, 184
The intellectually handicapped mother and her child, 173
The mode of action and complications of Infant Gaviscon, 263
The treatment of peritonitis by post-operative peritoneal lavage in the small infant, 118
Three-year-old twins and singletons. A comparison of some perinatal, environmental, experiential, and developmental characteristics, 243
Total parenteral nutrition of premature infants.
1. Requirement for macronutrient elements, 62
2. Requirement for micronutrient elements, 67
Transcutaneous measurement of oxygen tension in infants with hyaline membrane disease, 3
Twins and singletons, three-year-old. A comparison of some perinatal, environmental, experiential, and developmental characteristics, 243

U

Urinary obstruction, S30

W

Werdnig Hoffmann disease, birth injury with unusual clinical features simulating, 47
Wheezing, prevalence of, in pre-school children in Lower Hutt, 168
